# EVENING BULLETIN

3:30 EDITION

Is a builder-up of confidence between the public and merchant

Bulletin advertising is the  
throttle that controls Honolulu store  
business. The speed of that business  
depends on how far a merchant pulls  
that throttle open.

ESTABLISHED 1882. NO. 4687.

10 PAGES.—HONOLULU, TERRITORY OF HAWAII, WEDNESDAY, AUGUST 3, 1910.—10 PAGES.

PRICE 5 CENTS.

## NORGAARD REPORTS ON LOCAL DAIRIES SCHR. JAMES ROLPH IS TOTAL LOSS

### Hilo Wirellesses Wharf Protest Board Of Trade Denies Public Hearing Was Held—Now Demands One

(Bulletin Wireless.)  
HILO, Hawaii, Aug. 3.—A wireless has been sent to the Governor objecting to his signing the wharf license until Hilo has had a chance to be heard. A meeting has been called for Saturday.

The foregoing wireless was received this morning, and was the first information received in Honolulu of the fact that the business interests of Hilo are prepared to oppose the granting of the Hilo wharf license to the Hilo Railroad Company without having a full hearing and consideration of the question by the business interests of Hilo, and in face of the declaration by Governor Frear that the wharf license had been considered by the people of Hilo at the meeting held by Major Winslow at Hilo on the harbor lines.

When asked for the text of the wireless protest from Hilo, Governor Frear gave it to a representative of the Bulletin this morning. It reads as follows:

Hilo, August 3, 1910.  
Governor Frear, Honolulu.  
Wharf proposition not discussed  
Winslow public meeting. Hold li-  
cense until Hilo business interests

have a hearing. Public meeting will be called August sixth.  
(Signed) RICHARDS,  
President, Board of Trade.

This message, received at 11:30 this morning, shows that the people of Hilo want something to say as to the conditions under which the proposed wharf are to be built, and that they want some way of getting merchandise on or off steamers outside the means furnished by the Hilo Railroad Company.

President Richards of the Board of Trade was in Honolulu last Monday, when the story of the franchise was given to the public by the Bulletin, and he returned to Hilo yesterday.

As soon as he arrived home he must have had a consultation with the business interests in regard to the wharf matter, and the message sent to Governor Frear this morning is a result of this action on his part.

The Governor said this morning that he would give the hearing requested in the message of Mr. Richards before he signed the license for the Hilo Railroad Company to construct the wharf.

### Insurgents Control Iowa

DES MOINES, Iowa, Aug. 3.—Insurgent Republicans are in complete control of the Republican State convention that opened its session here today.

United States Senator Cummins has been selected as temporary chairman, and Senator Dolliver will be elected as permanent chairman. Dolliver must seek reelection from the Legislature to be elected this fall, and a hard fight will be made against him.

### DAILY SCORES OF BIG LEAGUES

(Special Bulletin Cable.)  
SAN FRANCISCO, Aug. 3.—The scores in the big leagues' play today are:

National—Philadelphia 1, Pittsburg 4; Philadelphia 4, Pittsburg 5; Boston 5, Cincinnati 4; Boston 5, Cincinnati 3; New York 0, Chicago 3; Brooklyn 5, St. Louis 3.  
American—Cleveland 4, New York 2; Chicago 1, Philadelphia 2. Other games were postponed.

Club	W	L	Pct.
Chicago	57	27	.678
New York	59	36	.618
Pittsburg	47	36	.568
Cincinnati	43	41	.511
Philadelphia	43	43	.500
St. Louis	36	53	.404
Brooklyn	35	51	.406
Boston	22	57	.386

Club	W	L	Pct.
Philadelphia	59	31	.655
New York	54	36	.600
Boston	55	38	.591
Detroit	51	41	.554
Cleveland	49	45	.470
Washington	37	53	.411
Chicago	34	54	.386
St. Louis	29	58	.334

### BACKED BY STANDPATTERS

(Special Bulletin Cable.)  
ST. LOUIS, Mo., Aug. 3.—The Congressmen supported by the standpatters have been renominated.

GUTHRIE, Okla., Aug. 3.—At the primaries today the Republican standpatters elected four delegates to the convention, the result of the fifth being in doubt.

### STEAMERS IN COLLISION

(Special Bulletin Cable.)  
SEATTLE, Wash., Aug. 3.—The steamers Chippewa and Albion were in collision today. The Albion was beached to prevent sinking. No lives were lost.

### INSURGENTS ELECT TO SUIT

(Special Bulletin Cable.)  
TOPEKA, Kan., Aug. 3.—At the Republican primary held here today, the insurgents elected delegates to the convention who are pledged to support their choice for governor and six out of the eight Congressmen.

### SUGAR

### MANY COWS ARE FOUND TO BE INFECTED

Results Of Thorough  
Examination In  
Report

CONDITIONS ABOUT  
SAME AS MAINLAND

"The fact that Honolulu milk contains a very high percentage of dirt cannot be denied. According to some authorities the citizens of Berlin consume 300 pounds of cow-dung in their milk daily and while I am not in a position to state how much the inhabitants of Honolulu absorb per day of this commodity, it is safe to presume that each individual of the milk-drinking public at least gets a share equally as great as the citizens of Berlin, a city which is noted for its clean dairies."

Such are some of the concluding observations of Dr. Norgaard in his report rendered to the Board of Agriculture and Forestry this afternoon on the condition of dairy cattle in Honolulu.

As it is impossible to destroy all the tuberculous cattle without serious loss to the owners, he recommends that central milk depots be established where all milk for sale may be brought and thoroughly pasteurized under government supervision before being placed on the market.

Cows in fifty-nine dairies have been tested by the veterinarians in their work, a total of 1288 cattle were tested, of which 438 reacted and eighteen were suspicious.

In the first test made at the Iseberg dairy 264 cattle were examined, 175 reacted to the test and one was suspicious. Later another test of new cows was made there, when 69 were tested, of which 38 reacted. In the Alexander Young dairy of 32 head 26 reacted to the test and two were suspicious. In Pond's dairy there were but four tuberculous cattle out of 86 examined, and Leahl dairy had but two diseased animals out of 42. Belina with 60 cattle had 34 declared tuberculous, and Andrade had 10 out of 59 tested. Marshall and Azevedo with 17 cattle had 11 which reacted, Manuel de Costa had nine out of 12 and J. P. Mendoza with 14 cows had 10 which reacted to the test.

One of the worst conditions was found in the dairy of Rose Davison, where out of 21 cows 18 reacted and 3 were suspicious.

"In the City of Honolulu, and vicinity, including Waiānae, Moanalua and Nuuanu Valley, there has been tested 1291 animals belonging to 52 different owners, as per the itemized statement hereto attached. This number includes 37 bulls and about 50 head of calves, while of the remainder about 25 per cent are dry cows and heifers. A total of 455 head, or 35.24 per cent of these animals have reacted to the tuberculin test, that is, have been found to be affected with tuberculosis. Of this number 42 head have been destroyed and have been found on post-mortem examination to exhibit the pathological alterations characteristic of tuberculosis, to a greater or less extent—thereby confirming the value of tuberculin as a diagnostic agent for tuberculosis."

"PREVALENCE OF TUBERCULOSIS.—The number of animals which have reacted to the test, that is, approximately every third animal, is not surprisingly great when it is considered that with very few exceptions nothing has been done for years in the line of controlling the disease. Since the attempt in 1897 to eradicate tuberculosis from the dairy herds of Honolulu and vicinity, and when in the neighborhood of 1000 head of cattle

(Continued on Page 2)

### Schr. Rolph Wrecked In Fog

SAN FRANCISCO, Aug. 3.—The schooner James Rolph, bound from this port to Hana, Maui, with a full general cargo, went ashore on Point San Pedro, fifteen miles south of here.

The ship piled on the rocks in the fog and will be a total loss. No lives were lost.

The James Rolph is a four-masted schooner, built in 1895, and owned by Hild, Rolph & Co. She sailed from Hana on June 14, 1910, with a cargo of sugar. She is reported to have sailed from San Francisco yesterday, under Captain Olsen, with a general cargo for Hana. The schooner is 169 feet over all, beam 37 feet and depth 12 feet. Her register is: Gross, 586; net, 517; capacity, 1180 tons.

The schooner has been making trips between Hana and the Coast for a number of months.

### CALHOUN MEN SENT TO JAIL

SAN FRANCISCO, Aug. 3.—Three attorneys of Patrick Calhoun were sentenced to five days in jail today for contempt of court.

Attorneys A. A. Moore, Stanley Moore and J. J. Barrett appeared in court in the Calhoun case, and in the course of argument charged that Judge Lawler was doing politics from the bench. The men were adjudged guilty of contempt and given a jail sentence.

### BALL FANS ARE HEAVILY FINED

Bottle Throwers Have To  
Pay Big Pile For  
Fun

Three Japanese who were arrested last Sunday at the Athletic Park and charged with having assaulted police officers, appeared in court this morning, and were represented by Senator C. F. Chillingworth. Ima, one of the defendants, had the charge against him reduced to common assault and battery and, on pleading guilty, was fined \$10 and costs. He was the man who struck Special Officer Olsen on the face with his fist. The fact that Olsen was in plain clothes, and that no weapon was used, induced the judge to fine the man lightly.

Joy Yamada pleaded guilty to a charge of assaulting Police Officer Spencer with a bottle, and was fined \$100 and costs. The bottle was thrown by Yamada and struck Spencer in the neck.

The third man, Saita, who was alleged to have thrown a bottle at Detective Kellett, pleaded not guilty to the charge, but was found guilty and fined \$100 and costs. Chillingworth noted an appeal in the cases in view of getting a mitigation of the fines.

The trouble arose after the baseball game between the C. A. C. and the Waseda last Sunday afternoon, and the prompt action of the police is thought to have prevented much more serious trouble.

Robert O. Abel was burned to death and Frederick Abel, his brother, and Harry Jessom were burned and bruised when an automobile in which they were riding ran into a ditch and was capsize and burned in St. Louis county, Mo.

### U.S. Navy May Close Harbor Report That Officials Want To Forbid Pearl Harbor To General Commerce

It is persistently rumored that plans are on foot to close Pearl Harbor to everything but naval vessels.

Governor Frear, in response to a question today if he had any knowledge of a movement of this kind either here or in Washington, replied promptly that he had not.

It is understood that the movement has been inaugurated here to influence the navy department to make Pearl Harbor wholly a naval reservation and to prohibit any craft

except United States government vessels from entering its waters.

As to whether this movement is one started by naval officials themselves or by civilian residents here can not be learned today, but the rumor that such action is contemplated, if not already under way, is persistent.

Pearl Harbor closed to the public would be a most extraordinary situation and seems impossible to accomplish.

### SUNRISE FLAG SETS AT KAAWA

The Stars And Stripes  
Supplant Nipponese  
Banner

The sunrise flag of Dai Nippon went down before the stars and stripes of Uncle Sam over at Kaaawa schoolhouse the other day and, strange to say, the war jingoes of both the United States and Japan have yet to be heard from.

Several members of the city and county supervisors boarded Jim Qui's big Pa-kard and made a tour of the city and county. In the course of their travels they paid a visit to a number of buildings that have received attention at the hands of the carpenters and repairers and found everything to their liking.

As the supervisory party approached the Kaaawa school building the sight of a Japanese banner proudly waving from the flagstaff greeted the county solons.

Sam E. Kabele is the one lone teacher who during the school term trains the youthful mind at Kaaawa how to shoot aright. He was sent for and asked to account for the presence of a Japanese flag flying from the flagstaff of an American schoolhouse.

"Sam" declared that he had no other banner to display. The Nipponese emblem was ordered lowered, and Quinn, Logan and others he stirred themselves and informed the teacher that until they sent him a more fitting flag, he must refrain from any display of bunting from the school flagpole.

Quinn suggested that the Irish flag be unfurled pending the acquisition of an American banner. In fact, the supervisor was perfectly willing to compromise and sacrifice his emerald-hued vest at the altar of patriotism. A vision of a portion of Quinn's wardrobe fluttering from the Kaaawa school masthead was sufficient to spur the school committee to concentrated action, and the city purchasing agent will be authorized to secure an American flag, and it will soon greet the eye of the resident scholar and visitor to Kaaawa school district. The supervisors believe congratulations are in order that international complications did not follow the transposition of national banners.

### DANCE AT YOUNG

If the transport Logan gets in this afternoon and remains over night there will be a dance given on the Roof Garden of the Alexander Young Hotel by the management in honor of the visiting officers and ladies, Army and Navy folk and the townsfolk are invited.

### JUDGE WARNS AUTO DRIVERS

King Appears In Court  
For Third  
Time

M. C. King was this morning charged at the police court with having operated an automobile in a heedless fashion last Saturday. He pleaded not guilty, and was defended by Leon M. Strauss. The defense tried to prove that the steering gear of the machine was out of order and that that was the reason that it tried first to hit the police station and then waltzed across to the Yokohama Bank, from where it sailed into the opposite side again.

Judge Andrade found King guilty as charged, but stated that there evidently was no high speed. Still, there was heedless driving, and he wished to warn other motorists that if any of them appeared before him three times and were convicted, that their license to drive would be canceled.

King has now three convictions against him, but the last one was under the Territorial law and not the county ordinance. Under the Territorial law the judge has no power to cancel a license. A fine of \$10 and costs was imposed in the case and the amount was at once paid.

### HORSE SHIES

Yesterday afternoon at 5 o'clock a Chinese named Ah Tow met with an accident through his horse shying at an automobile. It appears that Ah Tow was driving down the hill at Hastings road, Manoa, when an automobile approached.

The horse in the Chinaman's wagon became restive and finally turned around suddenly, capsizing the vehicle. The driver was thrown out and sustained some bruises and scratches. He was taken to the Queen's Hospital for treatment and is not thought to be in any danger.

### DON'T BORROW SAYS MILVERTON

According to an opinion that has been handed down by Deputy City and County Attorney Milverton, the Board of Supervisors has no power to borrow \$1100 from the Waterhouse Trust Company, in order to pay for work of building 2000 feet of road in Palolo Valley. Milverton advised the board to call for tenders and award the contract in the regular way.

CLEVELAND, O., July 24.—Two score freight cars with their contents and the Big Four freight transfer house at Lyndale, a suburb of Cleveland, were burned tonight at a loss of \$200,000.

### MINISTER OURA HERE ON TENYO

Cabinet Member Of Japan  
And Mayor Ozaki  
Will Arrive

His Excellency K. Oura, Minister of Commerce and Agriculture of the Imperial Government of Japan, will be a visitor in Honolulu within the next few days. According to the latest report received here, he will arrive from San Francisco on the steamship Tenyo Maru, on the morning of August 22.

Minister Oura, who has been visiting in London, where he was present at the opening ceremony of the English-Japanese exhibition, is returning to his home in Tokyo, where he will make his official report to His Majesty the Emperor of Japan.

Oura is a noted politician and statesman. He is popular and is looked upon by the Japanese farmers as one of the most progressive members of the cabinet. His administration of affairs throughout the Empire, regarding the development of the lands, has won for him the confidence of the farmers.

While in England, Oura visited almost all the farming districts in the land. He was a guest of the Minister of Agriculture there. He is now visiting in the United States and will take the liner Tenyo Maru at San Francisco.

Aside from Minister Oura, it is expected by the local Japanese that His Honor Y. Ozaki, mayor of the city of Tokyo, the capital of Japan, will also come to Honolulu, preparatory to proceeding to the United States. The date of his arrival here is not known yet, but it is expected that he will arrive on the next steamer from the Orient. While in Honolulu Mayor Ozaki will be entertained by Mayor Fern and Consul General Uyeno. Mrs. Ozaki is an American.

H. Olsen, who robbed a friend of \$10, was given one year's jail this morning by Judge Andrade. The offense took place at Ewa and the money was taken from a trunk in the complainant's room.

### BUILDERS TO BE CONSULTED

Nearly Three Hundred  
Sections In  
Ordinance

"An chairman of the special committee appointed to draft a new building ordinance for the City and County of Honolulu, I can report progress," declared Supervisor McClellan last evening when called upon at the regular meeting of the board and asked as to what had been accomplished towards framing up new and better laws governing the erection of buildings within the City and County.

Engineer Guy Gere has the building ordinances of fifteen mainland towns and cities before him in his work of making a rough draft of the law that will be submitted to the Supervisors for their consideration.

The supervisory committee declare that the drawing up of the provisions of a building ordinance is no child's play. There are nearly three sections incorporated in the measure now in the hands of the committee and the city engineer. A hundred or more pages of close type-written copy must be gone over in a careful manner.

Some weeks ago the board appropriated two hundred dollars, with which to engage expert talent in the ordinance. It is now the present intention of the committee to submit the result of their labors to the local association of Master Builders. It is presumed that considerable discussion will follow the consideration of the proposed ordinance.

The application and bond from the following plumbers of the city of Honolulu have been found to be in proper form and it is recommended that licenses be granted them: Sang Yuen Kee, John Nott, Ed. R. Bath, V. Shinagawa, W. G. Let, Charles R. Pitar, S. K. Aki, K. Oka.
